

SUNFORGE

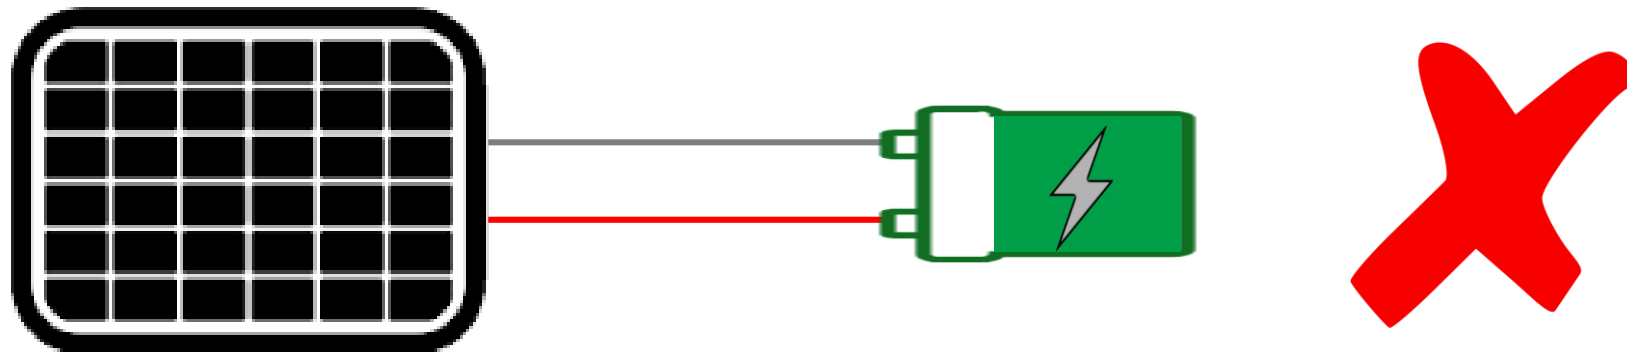

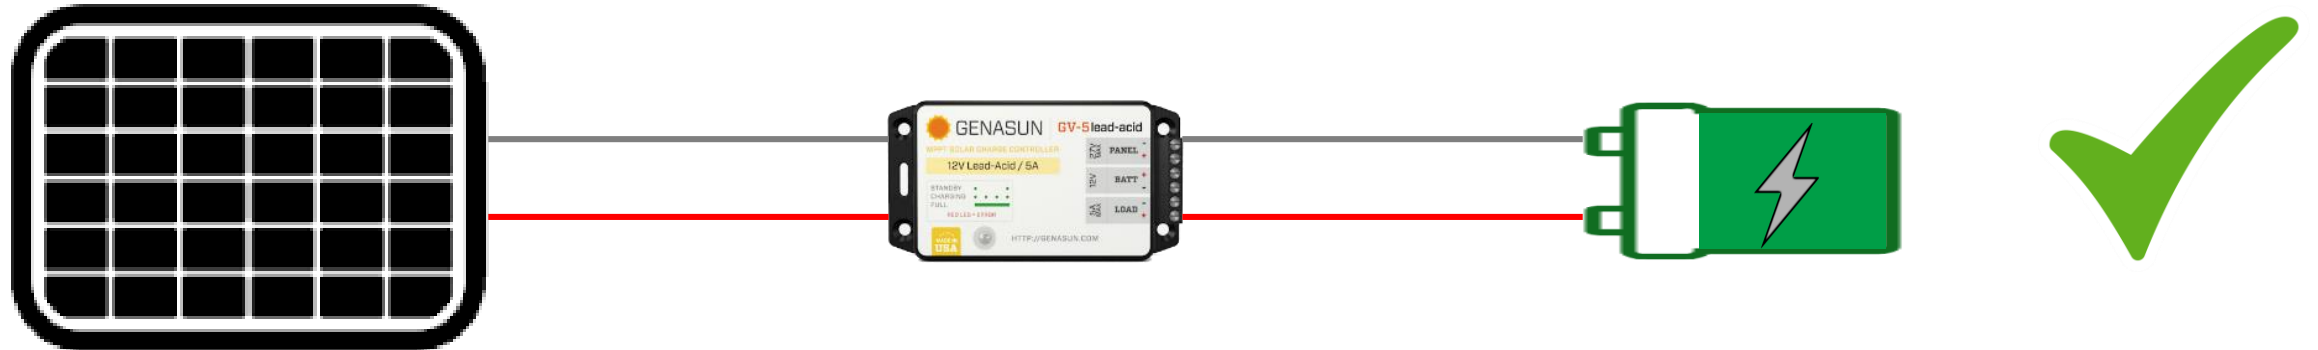

Blue Sky Energy

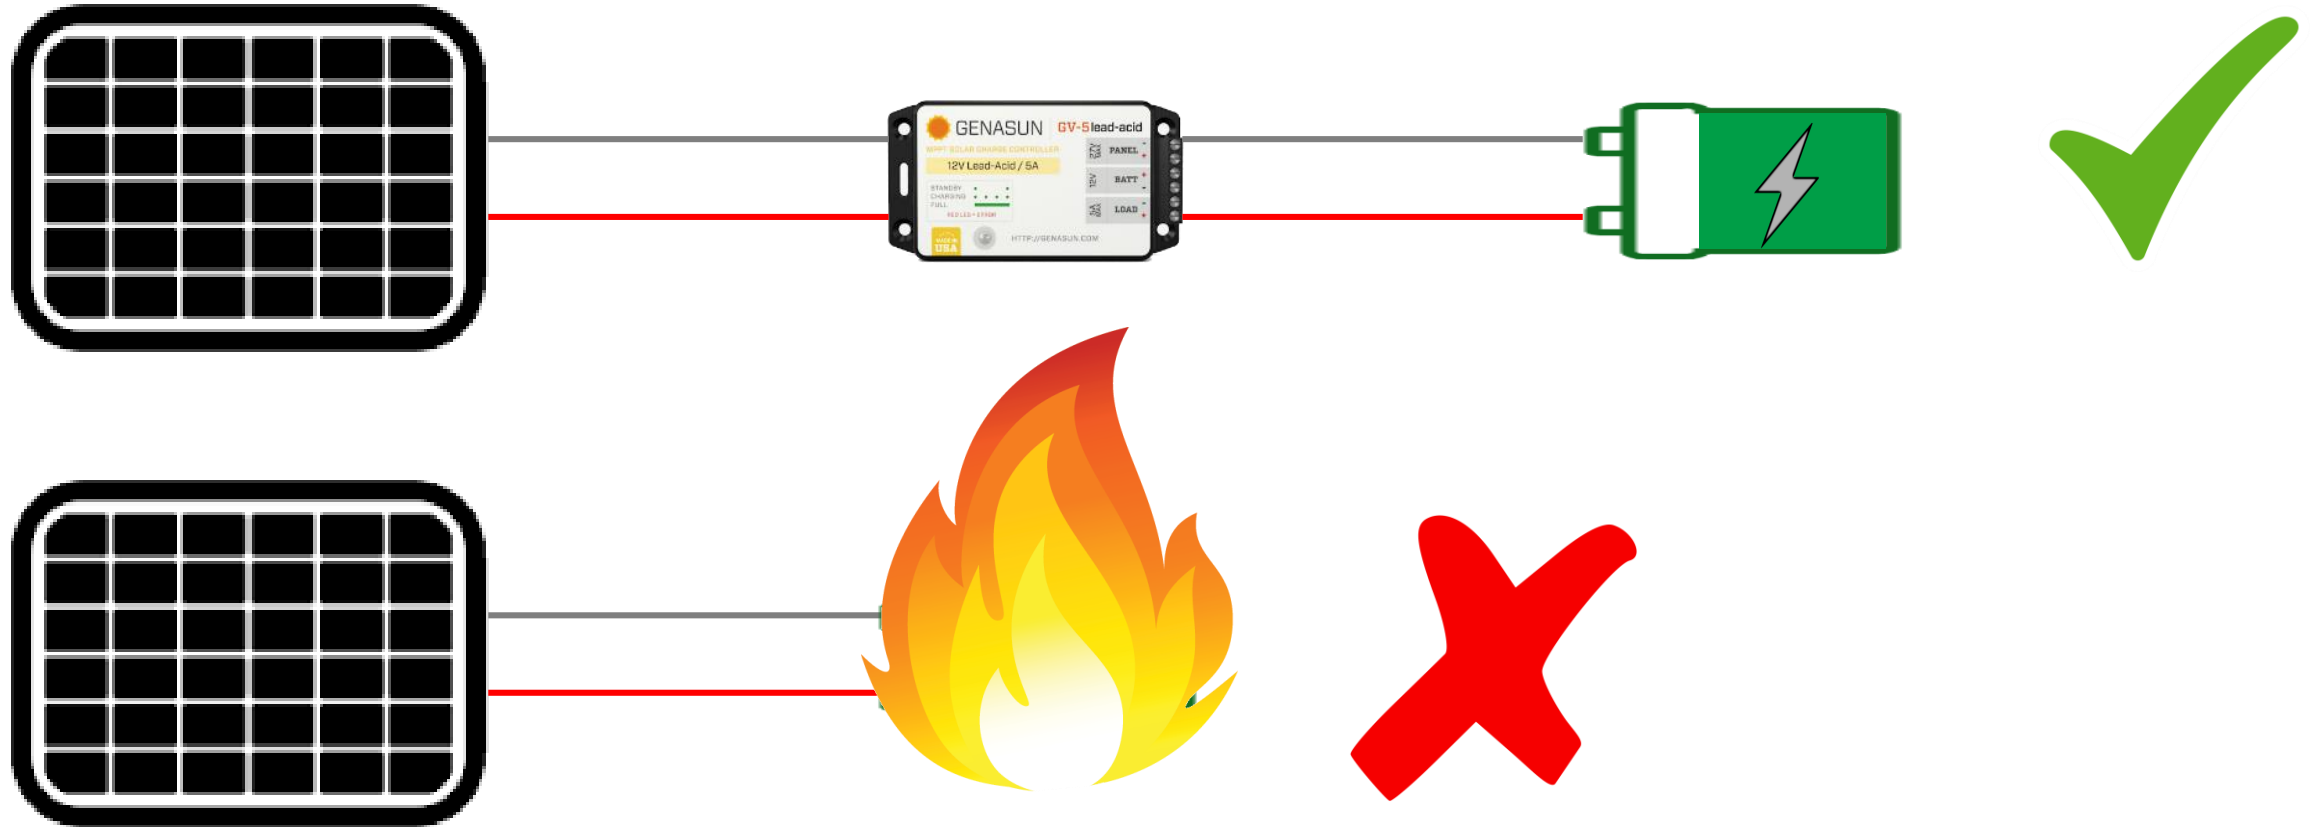

Genasun

Solar power that never sets.

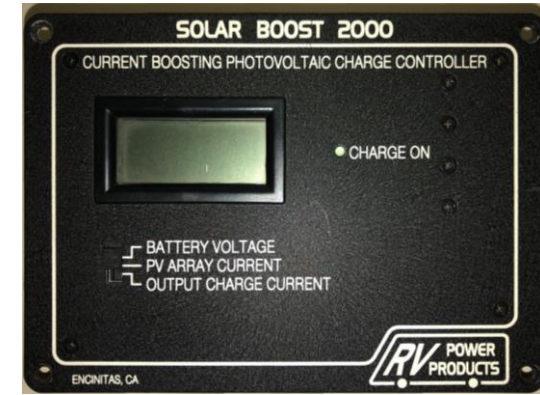

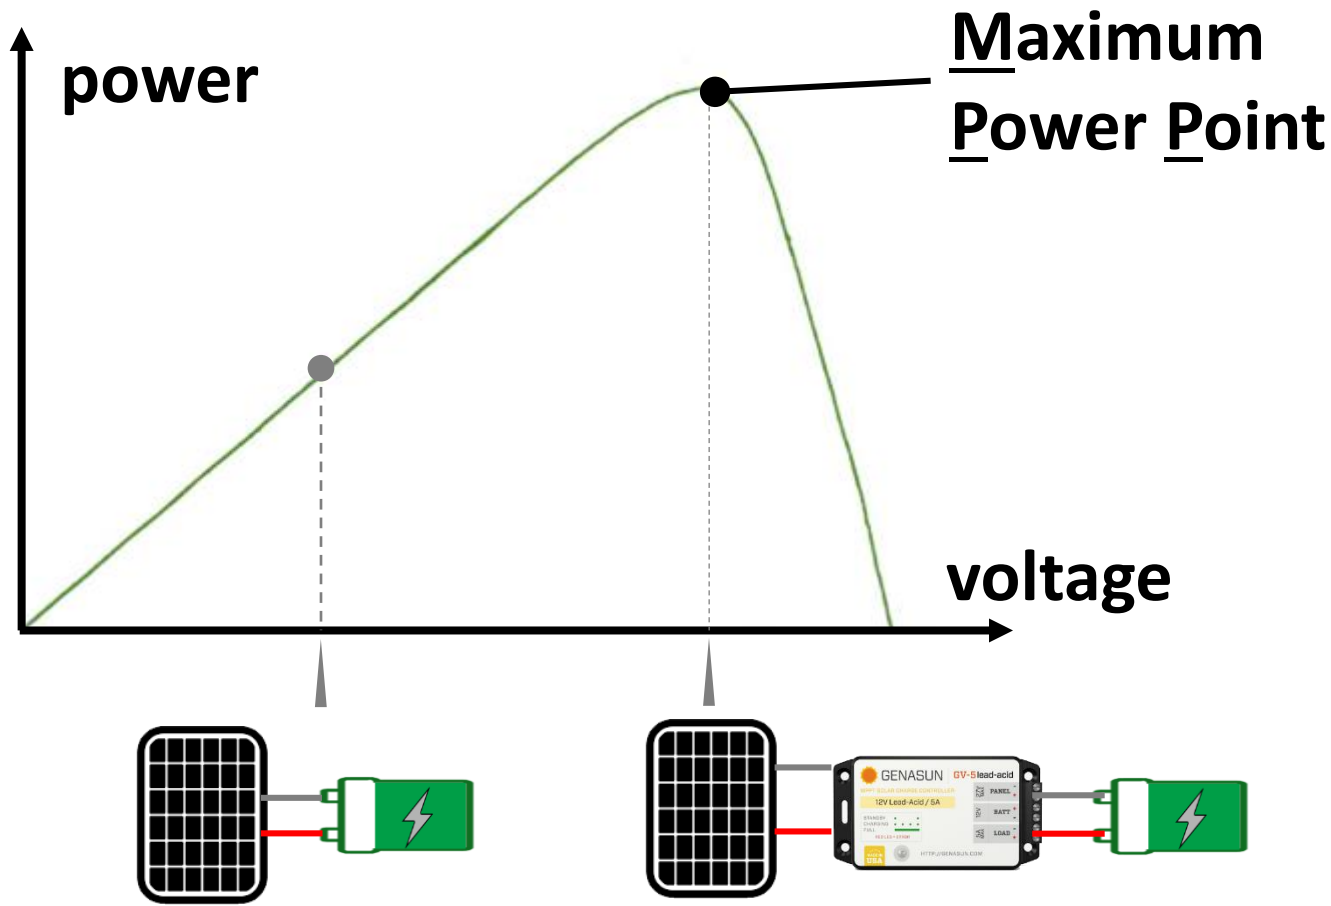

We enable battery storage.

We enable battery storage.

Pioneers in MPPT.

First commercial MPPT charge controller, circa 1998.

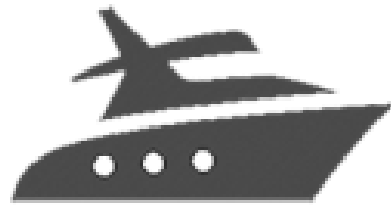

By tracking MPP, we maximize efficiency and power output.

We track maximum power point 15x/sec.

Most others? 1x/min.

We open **new markets** to solar where it wasn't viable before.

We take marginal demand **off the grid**.
